

**NAME: DHARSHINI R****REG NO: 22MID0132**

My simple dashboard for a travel agency:

```
In [1]: # travel agency dashboard
```

```
In [2]: #basic user inputs
def info():
    name = input("Enter your name: ")
    dest = input("Enter your destination: ")
    sdate = input("Travel start date: ")
    edate = input("Travel end date: ")
    travelers = int(input("Number of travelers: "))
    print("\nPackage Types:\n1. Budget\n2. Standard\n3. Luxury")
    choice = input("Choose a package (1/2/3): ")
    packages = {'1': 'Budget', '2': 'Standard', '3': 'Luxury'}
    package = packages.get(choice, 'Standard')

    return {
        'name': name,
        'destination': dest,
        'start_date': sdate,
        'end_date': edate,
        'travelers': travelers,
        'package': package
    }
```

```
In [3]: def calcost(travelers, package):
    base_prices = {'Budget': 10000, 'Standard': 20000, 'Luxury': 35000}
    return base_prices[package] * travelers
```

```
In [4]: def dashboard(info):
    cost = calcost(info['travelers'], info['package'])
    print(f"Name: {info['name']}")
    print(f"Destination: {info['destination']}")
    print(f"Travel Dates: {info['start_date']} to {info['end_date']}")
    print(f"Travelers: {info['travelers']}")
    print(f"Package Chosen: {info['package']}")
    print(f"Estimated Total Cost: ₹{cost}")
    print("=====")
```

```
In [5]: user_info = info()
```

Package Types:

1. Budget
2. Standard
3. Luxury

```
In [6]: dashboard(user_info)
```

```
Name: dharshini
Destination: south korea
Travel Dates: 25.07.2025 to 25.09.2025
Travelers: 4
Package Chosen: Luxury
Estimated Total Cost: ₹140000
=====
```

```
In [5]: user_info = info()
```

Package Types:

1. Budget
2. Standard
3. Luxury

```
In [6]: dashboard(user_info)
```

I took Goibibo for comparison with my dashboard,

Link for Goibibo :

[https://www.googleadservices.com/pagead/aclk?sa=L&ai=DChsSEwibn-7j8tCOAxX8pGYCHTNrFRsYACICCAEQABoCc20&co=1&ase=2&gclid=CjwKCAjw7fzDBhA7EiwAOqJkh1aJq2bi0MgtqTi72vs2IiqH3vIdF1jo1xA4FdbvXr7i0fQYiVPT3hoCk28QAvD\\_BwE&ohost=www.google.com&cid=CAESVuD235bILpmKh3BVTx9lQqyDq\\_SVtKSX5Rwvyxcn-7AduTFDv3\\_HUUQW4ATYn8jtZJDDkwoS79MA\\_\\_-UTImaZh58oLpK89uDukMS8xumWmLg42Iw6\\_Ra&category=acrcp\\_v1\\_40&sig=AOD64\\_1GvzJIaPzbzQ41i\\_QAkH\\_L0vpcg&q&nis=4&adurl&ved=2ahUKEwjhrenj8tCOAxUkUGwGHVdkMcoQ0Qx6BAgJEA](https://www.googleadservices.com/pagead/aclk?sa=L&ai=DChsSEwibn-7j8tCOAxX8pGYCHTNrFRsYACICCAEQABoCc20&co=1&ase=2&gclid=CjwKCAjw7fzDBhA7EiwAOqJkh1aJq2bi0MgtqTi72vs2IiqH3vIdF1jo1xA4FdbvXr7i0fQYiVPT3hoCk28QAvD_BwE&ohost=www.google.com&cid=CAESVuD235bILpmKh3BVTx9lQqyDq_SVtKSX5Rwvyxcn-7AduTFDv3_HUUQW4ATYn8jtZJDDkwoS79MA__-UTImaZh58oLpK89uDukMS8xumWmLg42Iw6_Ra&category=acrcp_v1_40&sig=AOD64_1GvzJIaPzbzQ41i_QAkH_L0vpcg&q&nis=4&adurl&ved=2ahUKEwjhrenj8tCOAxUkUGwGHVdkMcoQ0Qx6BAgJEA)

Goibibo has an mode of transport option.

It also gives option to choose like one-way, Round-trip, Multi-city.

In my dashboard I have asked the user for few questions to suggest places to travel based on the user's responses,

```
In [8]: #travel destination
place=input("Enter the places you want to travel:")
desti=place.split()
print(desti)

['germany', 'korea', 'paris', 'kerala']
```

```
In [9]: question= [
    "what are the places you've visited before?",
    "where would you like to go again and again?",
    "what is your favorite place to visit?",
    "what activities are you most intrested in?",
    "what kind of experiences are you looking for?",
    "Do you prefer solo or travelling with someone?" ]
answers = []
for q in question:
    ans= input(q)
    answers.append(ans)
```

```
in Your answers:
what are the places you've visited before? all over india
where would you like to go again and again? hometown
what is your favorite place to visit? hill stations
what activities are you most intrested in? trekking
what kind of experiences are you looking for? adventurous
Do you prefer solo or travelling with someone? with friends and family
```

```
In [10]: print("in Your answers:")
for q,a in zip(question, answers):
    print(f"{q} {a}")
```

```
